

To Whom it May Concern,

I am writing to recommend Bryan Almeida Farias for job positions related to Back-End development, involving Python, Django and SQL databases, among more languages/frameworks/tools, such as Linux, Docker, Cloud, Git, Celery/Redis and others related.

My name is Arthur Vrechi, Co-Founder and Head of Technology at Geplant Forest Technologies, located in Sao Paulo state, Brazil. I had the pleasure of working with Bryan for two years and four months, while he acted in my team as Back-End Developer.

As an employee, Bryan was always hardworking, reliable and resourceful. He was virtuous to research, study and implement new technologies, tools or methods on our software, showing a great capacity of self-learning and problem solving. Bryan was also always very collaborative, being helpful and effective with team members.

During his period at Geplant, Bryan collaborated by improving several internal processes, optimizing processing time and cloud resources, increase IT security, implementing supportive features and cooperating on Data Science and AI processes. Additionally, while working at Geplant, Bryan showed great professional development, including hard and soft skills.

Based on our experience together, I can confidently recommend Bryan for jobs related to Python development.
